

external doors

YOUR FRONT DOOR MAKES A STRONG STATEMENT ABOUT YOURSELF AND YOUR HOME, AND THE SUPERB MAGNET TRADE RANGE CAN HELP YOU MAKE SURE IT'S SAYING THE RIGHT THINGS. CHOOSE FROM A SUPERB ARRAY OF TRADITIONAL AND CONTEMPORARY, GLAZED AND PANEL DESIGNS, ALL BUILT TO KEEP YOUR HOME COMFORTABLE AND SECURE FOR YEARS AND YEARS TO COME.

external doors

First impressions are decisive, and the front door is often the first thing visitors notice about your home. Other external doors are important as well, making your home secure, keeping warmth in and the elements out as well as looking good. Choose from the Magnet Trade range of external doors and you'll have the ideal combination of craftsmanship and style, security and energy efficiency.

DELGATY COTTAGE OAK*

A traditional door, reminiscent of ivy-clad country cottages. Delgaty's unusual grooved and gently arched internal panel adds extra distinction and beautifully complements the delightfully decorated central light. The 20mm insulated glazing unit helps the door to provide an excellent u value of 2.1W/m²k. This a dowel constructed door in resilient hardwood veneer with 44mm engineered stiles and rails.

DELAMERE OAK PRE-GLAZED*

Solid traditional style door with four grooved panels. The distinctive twin lights contain 14mm obscure toughened glass insulated units, offering the ideal combination of illumination and privacy. The Delamere is a dowel construction door with 44mm thick engineered stiles and rails, providing excellent insulation. u value 2.3W/m²k.

All doors are 44mm thick. *Glazed with toughened glass.

DELAMERE OAK PANEL

The full panelled version of Delamere extrudes solidity and security, with three full length grooved panels and the same outstanding performance. u value 2.3W/m²k.

KILBURN OAK PRE-GLAZED*

Companion piece to the Kilburn Panel door. The central panel is factory pre-glazed and features a 14mm obscure toughened glass insulated unit, so you can introduce light into the interior without compromising performance, security or energy efficiency. Supplied unfinished. u value 2.7W/m²k.

KILBURN OAK PANEL

An elegant variation on the traditional panel door in rugged hardwood veneer, featuring 3 full length raised and fielded panels. Dowel construction with 44mm engineered stiles and rails ensuring outstanding performance and energy efficient insulation. Supplied unfinished so you can varnish, stain or paint in your own style. u value 2.7W/m²k.

MEXICANA EXTERNAL

The ultimate in traditional style, strength and simplicity, the Mexicana full panel door surrounds the clean lines of the central panel with a square grooved panel. A truly sturdy dowel construction door manufactured in the finest oak veneer with 44mm engineered stiles and rails. Supplied unfinished. u value 2.1W/m²k.

All doors are 44mm thick. *Glazed with toughened glass.

M&T RICHMOND PRE-GLAZED*

The Richmond door comes pre-glazed with 14mm obscure glass to make life that little bit easier. It's supplied unfinished so you can choose the finished look you desire. u value 2.9W/m²k.

M&T KENSINGTON PRE-GLAZED*

A sturdy door with a four light 14mm pre-glazed obscure fan at the top of the door and ex 5" stiles. The Kensington door ticks all the boxes for a stylish external door. Supplied unfinished.
u value 2.9W/m²k.

M&T COTTAGE STABLE PRE-GLAZED*

A simple country door with a tongue and grooved finish. Robustly made with a 14mm pre-glazed top half for easier installation. This door is supplied open in/open out for flexibility. It also exceeds the latest weather testing criteria.
u value 2.3W/m²k.

M&T STRAND PRE-GLAZED*

The Strand door is an exceptionally detailed door. Pre-glazed with 14mm obscure toughened glass for ease of installation. It's a stylish door supplied in the "white" for maximum flexibility.
u value 2.9W/m²k.

All doors are 44mm thick. *Glazed with toughened glass.
