18 X 150MM LACQUERED OAK

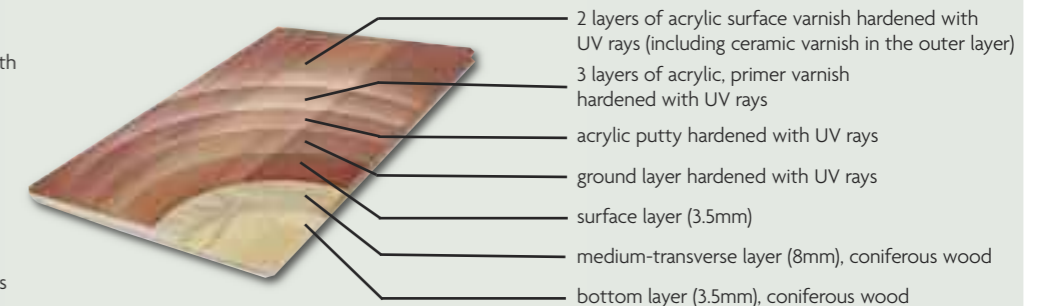

wood flooring

Nothing can compare with the beauty of real wood when it comes to enhancing and adding value to your home. Choose the clean lines and classic appeal of our oak plank, complete with subtle V grooves to imitate the style of traditional floorboards. Or perhaps the deep, rich glow of walnut is more to your taste. All flooring has a high quality lacquered finish unless otherwise stated, and there's a full range of accessories.

Magnet Trade's engineered wood flooring is composed of 3 layers of wood glued together in a cross-grain lamination that makes it very resistant to expansion and contraction from temperature change and moisture. As a result it is the only wood flooring that carries a stability warranty. Engineered wood floors are much more stable and dent-resistant and can be installed over concrete. You can be sure of quick, easy installation too. Thanks to our Click System, they fit together as simply as any laminate floor.

ADVANTAGES OF THE ENGINEERED WOOD CLICK SYSTEM

- Assembly is quick, clean and simple with no glue required
- Permanent and durable joints created
- Your floor is ready to use as soon as assembly is completed
- Easy to disassemble and reassemble if required because the inlet-outlet joints are so strong and durable

amtico flooring

Spacia and Spacia Contour are two stunning new ranges from Amtico International, world leaders in floor tile innovation.

Each collection is durable, quick and easy to install and tough enough for every room in the home including kitchens and bathrooms. So tough, in fact, that Spacia is guaranteed by Amtico for 15 years, and Spacia Contour for 10 years. Yet when you walk on Spacia and Spacia Contour you'll feel only soft, cushioned luxury.

Both are now available from Magnet Trade via your Trade Professional.

Spacia – the look of timber without the hassle

Spacia tiles are available in a range of 12 beautiful wood-style finishes, including dark, mid and light tones, that bring all the style of timber flooring into your home without all the hassle of woodcare.

Better still, they can be installed without all the laborious and expensive sawing, sanding and varnishing involved in fitting a timber floor.

Spacia Contour – stone style made simpler

A unique alternative to natural stone and ceramic flooring in six natural shades – Oatmeal, Earthen, Bone, Cotton, Sand and Suede. The tiles have a rounded appearance for a truly authentic appearance.
