## internal doors

We offer a wide range of internal doors in a variety of styles and finishes. They are all craftsman built to the highest standards and rigorously constructed using oak veneers and other specially selected hardwoods, all chosen for their natural beauty and outstanding durability.

### 4 PANEL OAK BOLECTION MOULDINGS

A timeless classic. This door is manufactured using the finest white oak veneers over MDF core panels. 4" stiles and solid oak bolection mouldings provide authentic proportions to ensure these doors are at home in both traditional and contemporary surroundings.

### 4 PANEL OAK PRE-GLAZED\*

A range in its own right or as a companion door to the 4 Panel Oak door. Using the same oak veneer and proportions as the 4 panel solid door with the added benefit of 2 clear bevelled glass panes to allow light to flood into the darkest of rooms. To make life that little bit easier it comes pre-glazed.

### 6 PANEL OAK BOLECTION MOULDINGS

The most traditional of doors solidly constructed of oak veneers with imposing proportions. The solid oak bolection beads give this door a suitably grand appearance. It provides a neutral backdrop that suits most styles.

All doors imperial 35mm thick, metric 40mm thick. Fire doors 44mm thick. \*Glazed with toughened glass.

#### LOUIS OAK BOLECTION MOULDINGS

An opulent door with beautifully moulded panels. Traditionally styled with solid oak bolection mouldings and white oak veneers, this door will add a touch of elegance to any home.

#### LOUIS OAK PRE-GLAZED\*

The distinctive glazed panels are the highlight of the Louis Oak glazed door. They mirror the shape of the solid Louis door and are also pre-glazed with toughened bevelled glass for ease of installation.

#### LANGDALE OAK 3 LIGHT PRE-GLAZED\*

Perfect wherever you wish to create a light, open, spacious ambience, this pre-glazed Langdale door makes optimum use of clear, toughened glass. The dowel construction forms two slim vertical struts, dividing the full length glazing into a broad central expanse and two elegant side lights.

#### LANGDALE OAK 3 LIGHT PANEL

A distinctive panel door with a rare combination of sturdiness and delicacy. The oak veneer exudes solidity, while Langdale's dowel construction divides the central section into a striking full length panel flanked by two slimline companions. The strong verticals draw the eye upwards, ideal for creating a sense of height in a small or low ceilinged room.

All doors imperial 35mm thick, metric 40mm thick. Fire doors 44mm thick. \*Glazed with toughened glass.

**KILBURN OAK PRE-GLAZED\***

The combination of oak veneer and a full length clear glazed panel creates an internal door with a stunning blend of style and translucence.

**KILBURN OAK PANEL**

Imposing internal door featuring three elegantly sculpted full length raised and fielded panels. The door exudes such strength and security that it wouldn't look out of place in a medieval manor house. It's as solid as it looks, manufactured using the finest hardwood veneers, with 35mm engineered stiles and rail. Supplied unfinished so you can stain or varnish your doors as you please.

**KIELDER OAK**

With its single raised and fielded central panel the Kielder internal door will bring a sense of uncompromising solidity to any room in which it is fitted. Supplied unfinished.

**MEXICANA OAK**

Solidly constructed with a strong linear design. The Mexicana lends itself to both contemporary and traditional styles. Finish with satin nickel or brass door furniture to determine which look suits your home best.

All doors imperial 35mm thick, metric 40mm thick. Fire doors 44mm thick. \*Glazed with toughened glass.

#### SERENA

A door inspired by the durable, clean, unfussy lines of the Shaker movement. The door is supplied unfinished to allow you to stain to your own requirements.

#### SERENA PRE-GLAZED\*

A complementary door to the panelled Serena door, the Serena glazed door has the same simple styling and is pre-glazed using 4mm toughened clear glass, allowing you to provide more natural light where required.

#### FRENCH DOOR CONVERSION KIT FOR SERENA DOORS

Easily convert either of the Serena doors to a pair of stylish French doors with the conversion kit which consists of frame and astragal.

#### 5 PANEL V GROOVED PRE-FINISHED

An innovative 5 panel design pre-finished in a light veneer to suit a wide variety of uses. Each door has precision routed v grooves to provide a contemporary styled door, shown here with the Arc lever. It definitely makes a bold statement.

All doors imperial 35mm thick, metric 40mm thick. Fire doors 44mm thick. \*Glazed with toughened glass.

**5 PANEL V GROOVED  
GLAZED PRE-FINISHED\***

A companion door to the 5 panel v groove door. This door is pre-glazed with clear toughened glass with impressive diamond cut v groove glass to match the v groove of the panels. A door that is truly cutting edge.

**FRENCH DOOR CONVERSION KIT FOR 5 PANEL  
V GROOVED DOORS**

Easily convert either of the 5 panel v grooved doors to a pair of stylish French doors with the conversion kit which consists of frame and astragal. Supplied unfinished from solid timber.

**4 PANEL V GROOVED WALNUT**

A stylish door that combines the traditional mellow beauty of finest walnut veneer with cutting edge contemporary design. The four panels are divided by distinctive precision-routed v grooves trimmed with aluminium for a hi-tech touch.

**4 PANEL V GROOVED WALNUT GLAZED\***

The glazed and equally stylish companion door, also in rich, dark walnut veneer with an elegant expanse of clear toughened glass linking the four panels. Diamond cut v grooves decorate the glass, continuing and matching the aluminium trimmed grooves between the panels.

All doors imperial 35mm thick, metric 40mm thick. Fire doors 44mm thick. \*Glazed with toughened glass.
