WHETHER YOU ARE CREATING A WHOLE NEW STAIRCASE WITH OUR UNRIVALLED MADE TO MEASURE SERVICE, OR SIMPLY FRESHENING UP AN EXISTING FLIGHT OF STAIRS WITH NEW SPINDLES, NEWELS AND HANDRAILS, MAGNET TRADE PROVIDES A WEALTH OF IDEAS TO EXPLORE. ALL YOU NEED IS OUR SUPERB CRAFTSMANSHIP AND THE EXPERT ADVICE OF YOUR TRADE PROFESSIONAL.

Selecting your perfect staircase

START BY DISCUSSING IT WITH YOUR TRADE PROFESSIONAL

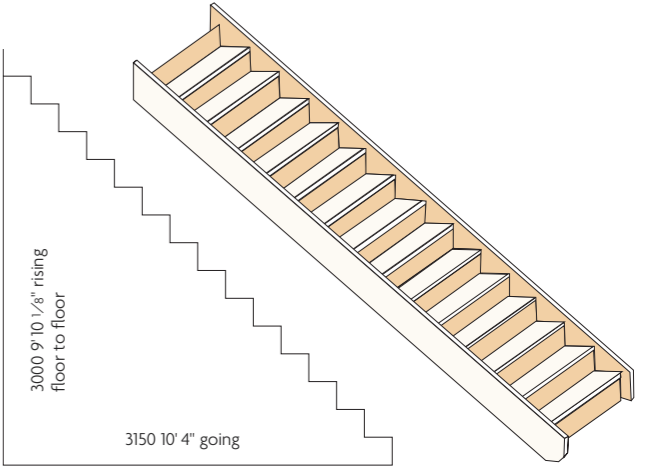

Their expert advice will enable you to pick the best tread and riser option from the three Magnet Trade standard staircase types illustrated here. Alternatively you may want us to create a bespoke staircase, – full details of this option are over the page.

All three standard staircases are available in either whitewood or clear timber. They are supplied brush-sanded smooth and untreated, ready for finishing on site with a woodstain or normal paint finish.

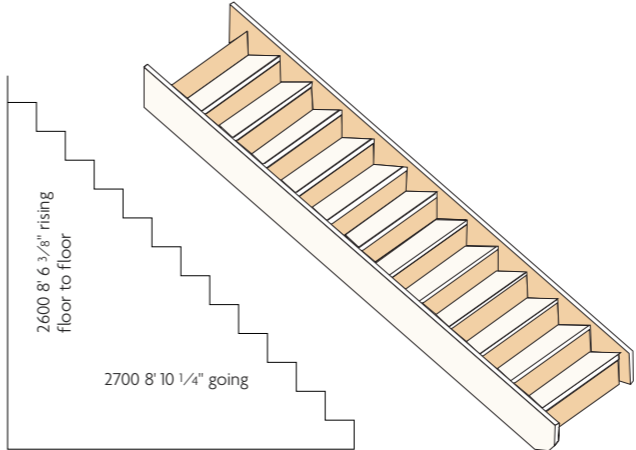

Your staircase will be delivered factory assembled with loose nosing for quick and easy installation. All the other components, including newel posts, spindles, handrails, base rails and cappings are supplied separately for on site assembly. A selection of spindle styles are featured over the page, but ask your Trade Professional to show you the full stunning range of possibilities.

Standard staircase components are:
 Strings Ex 31mm x 229mm (1 1/4" x 9"), MDF treads Ex 22mm (7/8"),
 Risers Ex 9mm (3/8") plywood or medium density fibreboard (at our option).

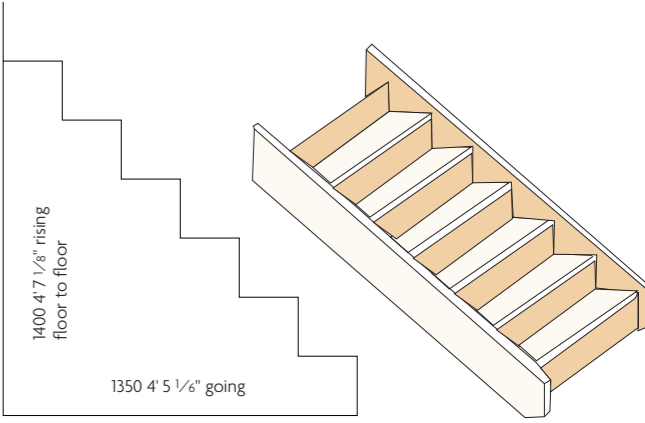

'Going' is measured from the face of the first riser to the face of the last riser. All staircases are 855mm wide (905mm in Scotland).

14 TREAD 15 RISERS*

12 TREAD 13 RISERS*

6 TREAD 7 RISERS*

*All stairs are available in clear timber or whitewood timber. Whitewood flights include medium density fibreboard treads and ply risers.

creating a bespoke staircase

ADD AN INDIVIDUAL TOUCH

Sometimes a standard staircase isn't suitable for the space available, or perhaps you want an extra special or truly spectacular stairway. No problem. Our craftsmen have been working with architects and builders for years. In collaboration with your Trade Professional, they'll know exactly what your project requires. And you can rest assured that your made to measure staircase will be supplied with everything necessary for speedy, efficient installation.

SPINDLES MAKE IT SPECIAL

Here are just a few of the spindle designs you can use to accessorise your staircase and complement your decor. Ask your Trade Professional to show you the full range, plus our equally varied choice of newels, turnings, caps, handrails and baserails.

FUSION
an innovation by daniel heath

from  **Richard Burbidge**

The Fusion system is available with rails and newels in a choice of attractive contemporary timbers. The sleek tubular balusters and co-ordinating metal connectors are offered in a chrome plated or brushed nickel finish to complete the highly contemporary look. Handrails and banister rails are available in pine, oak or dark hardwood.
